

Joseph Sabbagh (DDS, MSc, PhD, FICD)

Liibanoni Ülikooli Restoratiivse ja Esteetilise Hambaraviosakonna kaasprofessor, omab erapraksist Beirutis ja Brüsselis.

Tagahammaste ülesehituse võimalused: direktsed ja indirektsed tehnikad

26.10.2018

Tallink Spa & Conference Hotel, Sadama 11A, Tallinn

He graduated from Saint-Joseph university in Beirut. In 2004, he obtained his PhD in biomaterials from the catholic university of Louvain (UCL), Belgium. In 2000 he obtained a master in operative dentistry (restorative dentistry and endodontics) from UCL. In parallel, he obtained two certificates of advanced studies in biomaterials and operative dentistry from the university of Paris-VII, France, in 1997 and 1998. Currently, he is an associate Professor in the department of restorative and aesthetic dentistry in the Lebanese university and the director of the master program as well as several research projects. He is also a fellow researcher and a post-graduate lecturer in the catholic university of Louvain, Belgium. His private practice is limited to cosmetic dentistry and endodontics. He has published many papers in international peer-reviewed dental journals and has lectured locally and internationally. He is a member of: the Academy of Operative Dentistry USA, the editorial board of Reality -Journal, USA, the International Association of Dental Research, and fellow of the International College of Dentists.
